FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION

Analysis

Background

This bill would allow for the continuation of some online charitable gaming for the duration of this Disaster Declaration. Current statute, AS 05.15.640, disallows the use of broadcasting and the internet to conduct a charitable gaming activity.

With the restrictions and lockdowns because of COVID-19, the Administration has taken a position to allow these charitable organizations a medium for them to continue with their fundraising efforts, by being able to conduct the charitable gaming activity online for raffles, derbies, and other classics defined in AS 05.15.690.

Revenue Impact

The revenue impacts of this bill cannot be determined due to lack of current gaming information and the newness of this change. The revenue estimate for this legislation represents the anticipated change in net proceeds from this online activity to continue to occur in 2021, or for the duration of this Disaster Declaration.

There is no plausible way to estimate the revenue impacts of this legislation. If the Department knew what the impacts of this change in 2020 had on gaming net proceeds, we could estimate the impact for this year. That data has not yet been reported to the Department yet and is not due for a few months, so it would be difficult to forecast. The amount of net proceeds from all charitable gaming activities to state revenue is \$300,000 - \$400,000 per year. While this fiscal note is indeterminate, if there is a revenue impact to the state, it would be minimal.

Implementation Cost

There is no change to our Tax Revenue Management System (TRMS). The Department of Revenue can implement this legislation with existing resources and does not anticipate any continuing costs or additional staff needs.
